

Managed **PAY**

"Sky Combat Ace is the most advanced adrenaline rush you can find in the world, let alone Las Vegas. Guided by one of our expert aerobatic pilots, we allow our customers to take the controls of a 330-horsepower, carbon-fiber Extra 330LC and execute aerial maneuvers only seen performed in air shows. As the world's premiere civilian aerial combat experience, our customers reenact their favorite "Top Gun" moment by chasing their opponents through the Nevada skies like real fighter pilots. Under the supervision of our highly trained stunt pilot instructors, you are the one at the controls, you are the one squeezing the trigger, and you get the satisfaction of scoring a hit on your opponent. Thanks to the HR experts at ManagedPAY handling our payroll needs, we have more time to assist our customers in checking Sky Combat Ace off of their bucket lists."
