Getting Back to Business

After 22 years as a US Army dentist, I retired and started my private practice in Henderson. I differentiated Wineman Dental by delivering exceptional customer service; educating patients on treatment options and delivering that treatment with a sense of humor in a non-threatening environment. ManagedPAY has served as my HR department since day one. A family-owned and operated business that I trust, they provide web-based portals for time keeping and payroll, and quickly research and answer my complex labor and tax-law-related questions, allowing me to concentrate on patients' care. These are but a few reasons why I will definitely remain a client for life.

Joseph A. Wineman, DMD, ABGD
